Description

Iris Portable Mainline Crawler Camera System

The Insight Vision Iris is truly an “All-In-One” Portable Mainline Crawler Camera System with its 10” touchscreen on the 600ft. motorized reel and pan & tilt crawler. Truly compact & portable sewer crawler, it takes two operators to run this system and is transportable using a pickup truck. Start inspecting in a short amount of time using a power generator or 1000 watt inverter, saving countless hours and resources. Simple to use Windows Apps right on the home screen, get quick access to all of your video and picture gallery. Compatible with Muni-XS PACP reporting software.

Integrated Remote Inspection System

Our most advanced sewer camera, the IRIS sewer crawler (Integrated Remote Inspection System). An affordable and simple to use Pan & Tilt mainline crawler combined with Windows 7 operating system. Work just like your home or work computer with fast boot-up for rapid inspection and 500GB of internal memory for mass video storage. View, record and take snapshots wirelessly on your Apple or approved Android devices without

having internet connection. A revolutionary mainline sewer crawler designed to help our customers save money, reduces inspection time and improve our country's infrastructure with a high resolution inspection.

Features:

- Remote Desktop Support for training and support
- Pan & Tilt camera to view different angles of the pipe
- Motorized Reel with built-in Auto-feed/ Rewind to save time
- 600' Flexible Kelvar coax cable provides more durability
- Window 7 IOS that operates just like your home computer
- View wireless videos on your Apple or Android devices
- Inspect 6" to 12" and up to 18" with additional wheel set
- High Intensity LED for brighter inspection in dark pipes
- Download Free App from the Apple or Android Appstore
- Integrated power outlet, multiple recording ports and HDMI
