

NVE Challenger 887

Brand: Manufacturer

Product Code: 103-887P-FD

Availability: 1

Weight: 620.00lb

Dimensions: 0.00cm x 0.00cm x 0.00cm

Call for Price: 856-627-7790

Short Description

532cfm NVE887 PRO Challenger Series - Fan & Ballast Cooled

Description

532cfm NVE887 PRO Challenger Series Heavy Duty Vacuum Pump - Fan & Ballast Cooled

Features

- Proven crash protection allowing all major components to survive a catastrophic failure
- Four point automatic lubrication system
- Multiple drive options (gearbox and hydraulic)
- Integral, easily accessible, final filter
- Vane flush port with valve
- Vane wear inspection port on housing
- Enhanced axial load capabilities
- Lifetime warranty against cracked housing

- Two year warranty against manufacturer defect
- Vacuum-controlled ballast air cooling system
- Attached ballast silencing system
- Enhanced exhaust check for minimal free air obstruction
- Designed, built, and supported in the USA

*The maximum allowable operating vacuum will vary depending on R.P.M., ambient temperature, altitude and time running. The basic principle to keep in

mind is - faster R.P.M., higher air temperature and longer run time all equal more heat in pump. When installing a NVE 887 pump we recommend a normal

R.P.M. of 1100. Other speeds are ok as long as exhaust gas temperatures read on the supplied thermometer do not exceed 380 degrees F.
